

Safety data sheet

COMMISSION REGULATION (EU) 2020/878 of 18 June 2020

Creation date 01/01/08
Revision date 07/02/23
Version: 5

1 SECTION 1 Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

A. Trade name **BLOOM BOOSTER**

1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses of the substance or mixture: Bloom Booster is a growth and flowering activator for plants that can be used in organic agriculture according to the regulation (EU) N°2018/848 and 2021/1165 (replacing N°843/2007)

Uses advised against: Any use not specified in this section or in section 7.3

Use descriptor system (REACH): No data available (not applicable IK).

1.3 Details of the supplier of the safety data sheet

Company's name: Terra Aquatica
Address: 4 Boulevard du Biopole, 32500 Fleurance
Phone number: +33 (0)5 62 06 08 30
E-mail address: info@terraaquatica.com

1.4 Emergency telephone number

Medical / rescue services: **999**
Fire and rescue: **999**
Police: **101**
EU emergency call line: **112**
ORFILA Toxicological Information Center (INRS): **(+) 33 01 45 41 59 59**
Toxicological information center South West: **(+)33 05 61 77 74 47**

2 SECTION 2 Hazards identification

2.1 Classification of the substance or mixture

Reg. 1272/2008/CLP: In accordance with Regulation No. 1272/2008 (CLP), the product is not considered dangerous (IK).

Additional information: None
Hazards for humans: None
Environmental risks: None
Physico-chemical hazards: None
Other hazards: None

2.2 Label elements

In accordance with Reg. 1272/2008/CLP and its adaptations
Danger pictogram: None
Hazard Word: None
Hazardous substances to be indicated on the label: None
Hazard statement: None
Warning statement: P102 Keep out of reach of children
Additional information on hazards (EU):

2.3 Other hazards

None

3 SECTION 3 Composition/information on ingredients

3.1 Substances: Non applicable

3.2 Mixtures:

Bloom Booster

Bloom Booster is 100% organic growth and flowering activator for plants based on plant extracts authorised by the European Regulation on Organic Farming N°2018/848 & 2021/1165 (replacing N° 834/2007).

Additional data for identification of hazardous substances

Non applicable

4 SECTION 4 First aid measures

No known incidents of damage to persons who have used this product.

However, in case of doubt or if symptoms persist, seek medical attention. Do not give anything by mouth to an unconscious person.

4.1 Description of first aid measures

In case of eye contact

Immediately flush eyes, including under the eyelids, with plenty of clean, clear water for at least 15 minutes.

In case of skin contact

Rinse thoroughly with water for at least 15 minutes. Remove contaminated clothing. If the skin is red or puffy, or if an irritation persists, consult a doctor.

In case of ingestion/aspiration

Do not give anything by mouth to an unconscious or convulsing person. If a person has swallowed this product and is conscious, give small amounts of water to drink to dilute the product.

In case of eye contact

Under normal conditions of use, inhalation is unlikely. If inhaled, move to fresh air and if necessary, assist breathing. In case of breathing difficulties, consult a doctor as soon as possible.

Protection of first aid providers

Depending on the first aid context, wear appropriate protective equipment including a mask or filtered respirator. Always wear protective gloves and a resuscitation mask in case of artificial respiration. Wash hands thoroughly after first aid. If your clothing is contaminated with a chemical substance during first aid administration, change them.

Other data

For further details of first aid administration, including but not limited to more serious health effects, the doctor may consult the Toxicological Information Centre, hotline see section 1.4

4.2 Most important symptoms and effects, both acute and delayed

Bloom Booster can cause mild diarrhoea due to the enzymatic process with intestinal bacteria, if ingested in large quantities or in concentrated form.

4.3 Indication of any immediate medical attention and special treatment needed

No known data

5 SECTION 5 Firefighting measures

5.1 Extinguishing media

The product is not flammable. Fire hazard low due to the flammability characteristics of the product under normal storage, handling and use conditions.

Suitable extinguishing media for a surrounding fire

Use dry chemical, carbon dioxide, water spray (mist) or foam.

Inappropriate extinguishing media

In case of fire, do not use Water jet

5.2	Special hazards arising from the substance or mixture	<p>Given its flammability characteristics, the product does not present a specific risk of fire or explosion under normal storage, handling and use conditions.</p> <p>A fire in the surrounding area will often produce thick black smoke. Exposure to compositional products may pose health risks. Do not breathe dust, vapours or fumes released by the combustion of products.</p>
5.3	Advice for firefighters	<p>Quickly isolate the area by evacuating all persons from the area near the incident in the event of a fire. Do not take any action involving personal risk or in the absence of adequate training. Keep containers away from fire if it can be done without risk. Use water or spray to keep containers exposed to fire cool. Beware of water flows resulting from firefighting. Do not discharge fire extinguishing material into drains or sewers.</p>
	Protective actions to be taken when fighting fires	
	Appropriate protective equipment	<p>The product is not combustible. In the event of a fire in the surrounding area, appropriate extinguishing media and protective equipment may be used for the other materials present (full protective clothing and personal respiratory equipment), in accordance with EN469 for a basic level of protection against chemical incidents. Have a minimum of emergency facilities or intervention elements (fire blankets, medicine kit, etc.) in accordance with Directive 89/654/EC.</p>
5.4	Other data	N/A
6	SECTION 6 Accidental release measures	
6.1	Personal precautions, protective equipment and emergency procedures	
6.1.1	For non-emergency personnel	<p>Ensure proper ventilation. Wear gloves and safety glasses to avoid stains or risk of splashing.</p>
6.1.2	For emergency responders	<p>Workers will be equipped with personal protective equipment appropriate to the possible hazards. (See section 8)</p>
6.2	Environmental precautions	
6.3	Methods and material for containment and cleaning up	
6.3.1	Containment method	Sewer coverage
6.3.2	Cleaning procedure	<p>Collect the spilled product by mechanical means and remove any residues by water jets. Provide adequate ventilation at the location of the spill. The disposal of the contaminated material must be carried out in accordance with the provisions of point 13.</p>
	Other information	<p>Do not put the spilled product in contact with combustible or incompatible materials. Cleaning personnel must wear equipment to protect skin and eyes. Small amounts of product can be mopped with inert, non-combustible materials such as sand or soil. These materials must then be placed in appropriate containers. Do not dispose of in gutters or sewers. Do not discard any residue.</p>

6.4	Reference to other sections	<p>Collect the remains in an identified container see point 13 for disposal.</p> <p>Personal protective equipment see section 8</p> <p>Withdrawal considerations see section 13.</p> <p>See section 1 for emergency contact information.</p>
-----	------------------------------------	--

7 SECTION 7 Handling and storage

7.1	Precautions for safe handling	<p>Avoid formation of suspended particles and dispersion of the product in the air.</p> <p>Provide adequate ventilation in areas where suspended particles develop.</p> <p>Keep away from flames and sparks. Do not smoke. Keep away from heat and other sources of fire.</p> <p>Do not eat, drink or smoke in work areas.</p> <p>Wash hands after each use.</p>
7.2	Conditions for safe storage, including any incompatibilities	<p>Ensure adequate local ventilation or extraction.</p> <p>Store in a cool, dry place. Keep container tightly closed in a dry, well-ventilated place.</p> <p>Close containers before and after each use to avoid sources of moisture or heat.</p> <p>If possible in areas with waterproof pavement.</p>
7.3	Specific end use(s)	<p>No specific end uses.</p> <p>Good practices keep in closed containers. Close containers before and after each use to avoid sources of moisture or heat.</p> <p>Store in areas with waterproof pavement.</p> <p>The ingredients may lose their effectiveness if the product is stored in a too hot place, also avoid temperatures below 5°C.</p>

8 SECTION 8 Exposure controls/personal protection

8.1	Control parameters	<p>Not applicable</p> <p>Follow good industrial hygiene practices.</p>
8.2	Exposure controls	
8.2.1	Appropriate engineering controls	No particular control
8.2.2	Individual protection measures, such as personal protective equipment	<p>Use individual protections placed on the market in accordance with the provisions of Regulation (EU) 2016/425 of the European Parliament and of the Council of 9 March 2016.</p> <p>Personal protective equipment must be adapted to the risk, kept clean and properly maintained in accordance with the provisions of the Labour Code.</p>
a)	Eye/face protection	<p>It is recommended to wear protective glasses in accordance with the NF EN166 standard before any handling of products in order to avoid the risks of projection.</p>
b)	Skin protection	<p>Hands Wear suitable protective gloves in case of prolonged or repeated contact with the product to avoid stains.</p> <p>Use suitable chemical-resistant protective gloves in accordance with NF EN374.</p>
c)	Respiratory protection	<p>Ensure adequate ventilation, especially in enclosed areas.</p> <p>Respiratory protection device not required.</p>
	Body protection	<p>Wear appropriate protective clothing.</p> <p>After contact with the product, all soiled body parts should be washed.</p>

8.3 Environmental exposure controls No data available. Biodegradable product

9 SECTION 9 Physical and chemical properties

9.1 Information on basic physical and chemical properties

a)	Physical state	All Bloom Booster compounds are in aqueous solution.
b)	Colour	Dark Brown
c)	Odour	Sulphur
d)	Melting point/freezing point	Not determined
e)	Boiling point or initial boiling point and boiling range	Not determined
f)	Flammability	Non inflammable
g)	Lower and upper explosion limit	Not applicable
h)	Flash point	Not determined
i)	Auto-ignition temperature	Not determined
j)	Decomposition temperature	Not determined
k)	pH	4.9
l)	Kinematic viscosity	Not determined
m)	Solubility	Entirely soluble
n)	Partition coefficient n-octanol/water (log value)	Not determined
o)	Vapour pressure	Not determined
p)	Density and/or relative density	1.12
q)	Relative vapour density	Not determined
r)	Particle characteristics	Not determined

9.2 Other information

9.2.1 Information with regard to physical hazard classes None

10 SECTION 10 Stability and reactivity

10.1 Reactivity

Stable. No particular risk of reaction with other materials under normal conditions of use.

10.2 Chemical stability

Bloom Booster is stable at room temperature in closed packages and under normal storage and handling conditions. No hazardous polymerization can be produced by any of these components

10.3 Possibility of hazardous reactions

No risk of dangerous reactions under normal use and storage conditions

10.4 Conditions to avoid

No special conditions to avoid.

10.5 Incompatible materials

No specific data.

10.6 Hazardous decomposition products

None known

11 SECTION 11 Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

a)	Acute toxicity	No known toxicological effects
b)	Skin corrosion/irritation	
c)	Serious eye damage/irritation	
d)	Respiratory or skin sensitisation	
e)	Germ cell mutagenicity	
f)	Carcinogenicity	
g)	Reproductive toxicity	
h)	STOT-single exposure	
i)	STOT-repeated exposure	
j)	Aspiration hazard	

11.1.5 Information on likely routes of exposure

	Ingestion	May potentially cause mild diarrhoea if ingested in large quantities or in concentrated form.
	Inhalation	Unlikely route of exposure under normal conditions of use. No known significant effects or critical hazards.
	Skin exposure	No known hazards. Wash down with water.
	Eye Exposure	Slight irritation possible. Wash down with water.
11.1.6	Symptoms related to the physical, chemical and toxicological characteristics	No known effect
11.1.7	Delayed and immediate effects as well as chronic effects from short and long-term exposure	No known effect
11.1.8	Interactive effects	No data available
11.1.9	Absence of specific data	No data available
11.1.10	Mixtures	No data available
11.1.11	Mixture versus substance information	Mixture not containing substances subject to registration. No known adverse effects or symptoms resulting from exposure to the mixture or its components.
11.2	Information on other hazards	
11.2.1	Endocrine disrupting properties	No data available
12	SECTION 12 Ecological information	
12.1	Toxicity	Not known risks.
12.2	Persistence and degradability	Easily biodegradable by plants and soil. The product does not show any bioaccumulation phenomena.
12.3	Bioaccumulative potential	The product is not expected to cause any effect on the environment if used properly according to the recommendations.
12.4	Mobility in soil	This product can be carried by groundwater seepage or surface runoff because it is completely soluble.
12.5	Results of PBT and vPvB assessment	No components classified as PBT and vPvB
12.6	Endocrine disrupting properties	No data available to date to the best of our knowledge
12.7	Other adverse effects	No data available to date to the best of our knowledge
13	SECTION 13 Disposal considerations	
13.1	Waste treatment methods	Do not discharge into sewers or waterways. Waste Waste management is carried out without endangering human health and without harming the environment, including without creating a risk to water, air, soil, fauna and flora. Recycle or dispose of in accordance with current legislation, preferably by an approved collector or company. Disposal of the product/packaging it is prohibited to discharge it into sewers or waterways. Residues and empty containers must be handled and disposed of in accordance with the relevant local/national legislation in force. Follow the provisions of Directive 2008/98/EC on waste management. Recover the product as much as possible. Follow local legislation.
	Waste List Code	Not applicable

14	SECTION 14 Transport information	
14.1	UN number or ID number	Non-hazardous transport
14.2	UN proper shipping name	Non-hazardous transport
14.3	Transport hazard class(es) ADR IMDG OACI/IATA	Non-hazardous transport
14.4	Packing group	Non-hazardous transport
14.5	Environmental hazards	Non-hazardous transport
14.6	Special precautions for user	Non-hazardous transport
14.7	Maritime transport in bulk according to IMO instruments	Non-hazardous transport
15	SECTION 15 Regulatory information	
15.1	Safety, health and environmental regulations/legislation specific for the substance or mixture	
	Reg. 1272/2008/EC	The product does not contain substances that can be classified as carcinogenic. 1 or 2 according to Reg.1272/2008/EC and subsequent updates.
	Reg. 830/2015/EC (REACH)	Not applicable
	Special risks	None to our knowledge.
15.2	Chemical safety assessment	Evaluation not carried out
16	SECTION 16 Other information	
16.1	Abbreviations and acronyms	ADR European Agreement concerning the International Carriage of Dangerous Goods by Road CAS NUMBER Chemical Abstract Service number EC50 Concentration that gives effect to 50% of the test population. 16.3 Changes from the previous version

New version date	07/02/2023
Previous version date	07/12/2022
Version	5
Modified elements	Update According to Regulation (EU) 2020/878

16.4 Note

The indicated mixture does not require an SDS according to REACH requirements. Sheet established for information purposes.

This safety data sheet complies with the requirements established by Commission Regulation (EU) 2020/878 of 18 June 2020. It does not exempt the user from knowing and applying all the documents governing his activity. The user is responsible for taking precautions related to the specific use of the product. All regulatory requirements listed are intended simply to assist the recipient in fulfilling their responsibilities. This list should not be considered exhaustive. This sheet supplements the technical instructions for use but does not replace them. This safety data sheet has been compiled by Terra Aquatica on the basis of its current knowledge (safety data sheets of the active ingredients compiled by the manufacturer and other literature). The information contained herein is based on our knowledge of the product at the date indicated. It is given in good faith. The user's attention is drawn to the possible risks involved when a product is used for purposes other than those for which it was created.

The information describes the safety aspects of the product. They are not intended to guarantee specific properties.

The recipient must ensure that he is not responsible for anything other than the mentioned texts. It is the responsibility of the users to observe the applicable regulations.
