| Revision date : | |
| Version: | |

20/06/18 14/02/23 5

| 1 | SECTION 1 Identification of the substance/mixture | e and of the company/undertaking |
|---|---|--|
| 1.1 | Product identifier A. Trade name | FULVIC |
| 1.2 Relevant identified uses of the substance or mixture and uses advised against | | re and uses advised against |
| | Relevant identified uses of the substance or mixture | Fulvic is a substance in aqueous solution, extracted from lignin of 100% vegetable origin and Leonardite which can be used in organic agriculture to improve the efficiency of fertilizers, increase yields and correct soil mineralization and salinity. |
| | Uses advised against | Any use not specified in this section or in section 7.3 |
| | Use descriptor system (REACH) | No data available (not applicable: IK). |
| 1.3 | Details of the supplier of the safety data sheet | |
| 1.4 | Company's name Address Phone number E-mail address Emergency telephone number Medical / rescue services Fire and rescue Police EU emergency call line | Terra Aquatica 4 Boulevard du Biopole, 32500 Fleurance +33 (0)5 62 06 08 30 info@terraaquatica.com 999 999 101 112 |
| | ORFILA Toxicological Information Center (INRS) | (+)33 01 45 41 59 59 |
| <mark>2</mark> 2.1 | Toxicological information center South West SECTION 2 Hazards identification Classification of the substance or mixture | (+)33 05 61 77 74 47 |
| | Reg. 1272/2008/CLP | In accordance with Regulation No. 1272/2008 (CLP), the product is not considered dangerous (IK). |
| 2.2 | Additional information Hazards for humans Environmental risks Physico-chemical hazards Other hazards Label elements In accordance with Reg. 1272/2008/CLP and its adaptations Danger pictogram | None None None |
| | Hazard Word Hazardous substances to be indicated on the label | None |
| | Hazardous substances to be indicated on the label Hazard statement | None |
| | Warning statement | P102 Keep out of reach of children |

Additional information on hazards (EU)

| 2.3 | Other hazards | None |
|-----------------|---|---|
| 3 3.1 3.2 | SECTION 3 Composition/information on ingredien Substances Mixtures | ts Non applicable |
| | Description | Fulvic is a substance in aqueous solution, extracted from lignin of 100% vegetable origin and leonardite, which does not contain substances presenting a danger for health or for the environment according to the regulation (CE) N° 1272/2008. |
| | Additional data for identification of hazardous substances | Non applicable |
| 4 | SECTION 4 First aid measures | |
| | No known incidents of damage to persons who hav However, in case of doubt or if symptoms persist, s unconscious person. | e used this product. eek medical attention. Do not give anything by mouth to an |
| 4.1 | Description of first aid measures | |
| | In case of eye contact | Immediately flush eyes, including under the eyelids, with plenty of clean, clear water for at least 15 minutes. |
| | In case of skin contact | Rinse thoroughly with water for at least 15 minutes. Remove contaminated clothing. If the skin is red or puffy, or if an irritation persists, consult a doctor. Do not give anything by mouth to an unconscious or convulsing |
| | In case of eye contact | person. If a person has swallowed this product and is conscious, give small amounts of water to drink to dilute the product. |
| | In case of inhalation | Under normal conditions of use, inhalation is unlikely. If inhaled, move to fresh air and if necessary, assist breathing. In case of breathing difficulties, consult a doctor as soon as possible. |
| | Protection of first aid providers | Depending on the first aid context, wear appropriate protective equipment including a mask or filtered respirator. Always wear protective gloves and a resuscitation mask in case of artificial respiration. Wash hands thoroughly after first aid. If your clothing is contaminated with a chemical substance during first aid administration, change them. |
| | Other data | For further details of first aid administration, including but not limited to more serious health effects, the doctor may consult the Toxicological Information Centre, hotline: see section 1.4 |
| 4.2 | Most important symptoms and effects, both acute and delayed | No known symptoms |
| 4.3 | Indication of any immediate medical attention and special treatment needed | No known data |
| 5 | SECTION 5 Firefighting measures | |
| 5.1 | Extinguishing media | The product is not flammable. Fire hazard low due to the flammability characteristics of the product under normal storage, handling and use conditions. |
| | Suitable extinguishing media for a surrounding fire Inappropriate extinguishing media | Use dry chemical, carbon dioxide, water spray (mist) or foam. In case of fire, do not use: Water jet |

| 5.2 | Special hazards arising from the substance or mixture | Given its flammability characteristics, the product does not present a specific risk of fire or explosion under normal storage, handling and use conditions. A fire in the surrounding area will often produce thick black smoke. Exposure to compositional products may pose health risks. Do not breathe dust, vapours or fumes released by the combustion of products. |
|---------------------|---|--|
| 5.3 | Advice for firefighters | |
| | Protective actions to be taken when fighting fires | Quickly isolate the area by evacuating all persons from the area near the incident in the event of a fire. Do not take any action involving personal risk or in the absence of adequate training. Keep containers away from fire if it can be done without risk. Use water or spray to keep containers exposed to fire cool. Beware of water flows resulting from firefighting. Do not discharge fire extinguishing material into drains or sewers. |
| | Appropriate protective equipment | The product is not combustible. In the event of a fire in the surrounding area, appropriate extinguishing media and protective equipment may be used for the other materials present (full protective clothing and personal respiratory equipment), in accordance with EN469 for a basic level of protection against chemical incidents. Have a minimum of emergency facilities or intervention elements (fire blankets, medicine kit, etc.) in accordance with Directive 89/654/EC. |
| 5.4 | Other data | Non applicable |
| 6 6.1 | SECTION 6 Accidental release measures Personal precautions, protective equipment and e | mergency procedures |
| 6.1.1 | | |
| | For non-emergency personnel | Ensure proper ventilation. Wear gloves and safety glasses to avoid stains or risk of splashing. |
| 6.1.2 | For non-emergency personnel For emergency responders | |
| | | avoid stains or risk of splashing. Workers will be equipped with personal protective equipment |
| 6.1.2 6.2 6.3 | For emergency responders Environmental precautions Methods and material for containment and cleanin | avoid stains or risk of splashing. Workers will be equipped with personal protective equipment appropriate to the possible hazards. (See section 8) The product is biodegradable. However, avoid contamination of sewers, surface water and groundwater. If this happens, inform the competent authorities. |
| 6.1.2 6.2 | For emergency responders Environmental precautions | avoid stains or risk of splashing.Workers will be equipped with personal protective equipment appropriate to the possible hazards. (See section 8)The product is biodegradable. However, avoid contamination of sewers, surface water and groundwater. If this happens, inform the competent authorities. |

| 6.4 | Reference to other sections | Collect the remains in an identified container: see point 13 for disposal. Personal protective equipment: see section 8 Withdrawal considerations: see section 13. See section 1 for emergency contact information. |
|---------------------|---|--|
| 7 | SECTION 7 Handling and storage Precautions for safe handling | Avoid formation of suspended particles and dispersion of the product in the air. Provide adequate ventilation in areas where suspended particles develop. Keep away from flames and sparks. Do not smoke. Keep away from heat and other sources of fire. Do not eat, drink or smoke in work areas. Wash hands after each use. |
| 7.2 | Conditions for safe storage, including any incompatibilities | Provide adequate local ventilation or exhaust. Store in a cool, dry place. Keep container tightly closed. Temperature above 90°C may cause thermal decomposition creating totally benign by-products, organic matter, water, carbon. Ideally the storage temperature should be between 5 and 30°C. Close containers before and after each use to avoid sources of moisture or heat. Keep containers upright to avoid the risk of leakage. If possible store in areas with impermeable pavement. |
| 7.3 | Specific end use(s) | No specific end uses. Good practice: keep in closed and labeled containers. Close containers before and after each use to avoid sources of moisture or heat. Store in areas with impervious pavement. |
| 8 | SECTION 8 Exposure controls/personal protection | 1 |
| 8.1 | Control parameters | Not applicable Follow good industrial hygiene practices. |
| 8.2 8.2.1 | Exposure controls Appropriate engineering controls | No particular control |
| 8.2.2 | Individual protection measures, such as personal protective equipment | Use individual protections placed on the market in accordance with the provisions of Regulation (EU) 2016/425 of the European Parliament and of the Council of 9 March 2016. Personal protective equipment must be adapted to the risk, kept clean and properly maintained in accordance with the provisions of the Labour Code. |
| a) | Eye/face protection | It is recommended to wear protective glasses in accordance with the NF EN166 standard before any handling of products in order to avoid the risks of projection. |
| b) | Skin protection | Hands: Wear suitable protective gloves in case of prolonged or repeated contact with the product to avoid stains. Use suitable chemical-resistant protective gloves in accordance with NF EN374. |

| c) | Respiratory protection | Ensure adequate ventilation, especially in enclosed areas. Respiratory protection device not required. |
|--------------|--|---|
| | Body protection | Wear appropriate protective clothing. After contact with the product, all soiled body parts should be washed. |
| 8.3 | Environmental exposure controls | No data available. Biodegradable product |
| 9 | SECTION 9 Physical and chemical properties | |
| 9.1 | Information on basic physical and chemical proper | |
| a) | Physical state | All Fulvic compounds are in aqueous solution. |
| b) c) | Colour Odour | Light brown No odor |
| c) d) | Melting point/freezing point | Not determined |
| e) | Boiling point or initial boiling point and boiling | Not determined |
| f) | range Flammability | Non inflammable |
| g) | Lower and upper explosion limit | Not applicable |
| h) | Flash point | Not determined |
| i) | Auto-ignition temperature | Not determined |
| j) k) | Decomposition temperature pH | Not determined 7,5-8 |
| l) | Kinematic viscosity | Not determined |
| m) | Solubility | Entirely soluble |
| n) | Partition coefficient n-octanol/water (log value) | Not determined |
| o) | Vapour pressure Density and/or relative density | Not determined 1.22 |
| p) q) | Relative vapour density | Not determined |
| r) | Particle characteristics | Not determined |
| 9.2 | Other information | |
| 9.2.1 | Information with regard to physical hazard classes | None |
| 10 | SECTION 10 Stability and reactivity | |
| 10.1 | Reactivity | Stable. No particular risk of reaction with other materials under normal conditions of use. |
| | | Fulvic is stable at room temperature in closed packages and |
| 10.2 | Chemical stability | under normal storage and handling conditions. |
| | | No hazardous polymerization can be produced by any of these components |
| 10.3 | Possibility of hazardous reactions | No risk of dangerous reactions under normal use and storage |
| | • | conditions |
| 10.4 10.5 | Conditions to avoid Incompatible materials | No special conditions to avoid. No specific data. |
| 10.6 | Hazardous decomposition products | Not determined |
| 11 11.1 | SECTION 11 Toxicological information Information on hazard classes as defined in Regula | ation (EC) No 1272/2008 |
| a) | Acute toxicity | No known toxicological effects |
| b) | Skin corrosion/irritation | - |
| d) | Serious eye damage/irritation Respiratory or skin sensitisation | |
| d) e) | Germ cell mutagenicity | |
| f) | Carcinogenicity | |
| g) | Reproductive toxicity | |
| h) | STOT-single exposure | |

- i) STOT-repeated exposure
- j) Aspiration hazard
- 11.1.5 Information on likely routes of exposure

| | Ingestion | Unlikely route of exposure under normal conditions of use. No known significant effects or critical hazards. |
|------------------|--|---|
| | Inhalation | Unlikely route of exposure under normal conditions of use. No known significant effects or critical hazards. |
| | Skin exposure Eye Exposure | No known hazards. Wash down with water. Slight irritation possible. Wash down with water. |
| 11.1.6 | Symptoms related to the physical, chemical and toxicological characteristics | No known effect |
| 11.1.7 | Delayed and immediate effects as well as chronic effects from short and long-term exposure | No known effect |
| 11.1.8 11.1.9 | Interactive effects Absence of specific data | No data available No data available |
| 11.1.10 | Mixtures | No data available |
| 11.1.11 | Mixture versus substance information | Mixture not containing substances subject to registration. No known adverse effects or symptoms resulting from exposure to the mixture or its components. |
| 11.2 | Information on other hazards | |
| 11.2.1 | Endocrine disrupting properties | No data available |
| 12 12.1 | SECTION 12 Ecological information Toxicity | Not known risks. |
| 12.1 | Persistence and degradability | Inert product with no known risk to humans or the environment. |
| 12.3 | Bioaccumulative potential | No known bioaccumulation potential. |
| 12.4 | Mobility in soil | No data available to date to our knowledge |
| 12.5 | Results of PBT and vPvB assessment | No components classified as PBT and vPvB |
| 12.6 | Endocrine disrupting properties | No data available to date to the best of our knowledge |
| 12.7 | Other adverse effects | No data available to date to the best of our knowledge |
| 13 13.1 | SECTION 13 Disposal considerations Waste treatment methods | De pet discharge inte sewere er waterweve |
| 13.1 | waste treatment methods | Do not discharge into sewers or waterways. |
| | | Waste: Waste management is carried out without endangering |
| | | human health and without harming the environment, including without creating a risk to water, air, soil, fauna and flora. |
| | | |

Recover the product as much as possible. Follow local legislation. Waste List Code Not applicable SECTION 14 Transport information 14 14.1 UN number or ID number Non-hazardous transport 14.2 Non-hazardous transport UN proper shipping name 14.3 Transport hazard class(es) ADR Non-hazardous transport IMDG OACI/IATA 14.4 Packing group Non-hazardous transport 14.5 **Environmental hazards** Non-hazardous transport 14.6 Special precautions for user Non-hazardous transport Maritime transport in bulk according to IMO 14.7 Non-hazardous transport instruments 15 SECTION 15 Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

| 15.2 | Reg. 1272/2008/EC Reg. 830/2015/EC (REACH) Special risks Chemical safety assessment | The product does not contain substances that can be classified as carcinogenic. 1 or 2 according to Reg.1272/2008/EC and subsequent updates. Not applicable None to our knowledge. Evaluation not carried out |

16.4 Note

14/02/2023 03/01/2022 5

Update According to Regulation (EU) 2020/878 The indicated mixture does not require an SDS according to REACH requirements. Sheet established for information purposes.

This safety data sheet complies with the requirements established by Commission Regulation (EU) 2020/878 of 18 June 2020. It does not exempt the user from knowing and applying all the documents governing his activity. The user is responsible for taking precautions related to the specific use of the product. All regulatory requirements listed are intended simply to assist the recipient in fulfilling their responsibilities. This list should not be considered exhaustive. This sheet supplements the technical instructions for use but does not replace them. This safety data sheet has been compiled by Terra Aquatica on the basis of its current knowledge (safety data sheets of the active ingredients compiled by the manufacturer and other literature). The information contained herein is based on our knowledge of the product at the date indicated. It is given in good faith. The user's attention is drawn to the possible risks involved when a product is used for purposes other than those for which it was created.

The information describes the safety aspects of the product. They are not intended to guarantee specific properties.

The recipient must ensure that he is not responsible for anything other than the mentioned texts. It is the responsibility of the users to observe the applicable regulations.
