

Safety data sheet

COMMISSION REGULATION (EU) 2020/878 of 18 June 2020

Creation date : 01/12/17
Revision date : 27/03/23
Version: 5

1 SECTION 1 Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

A. Trade name HUMIC
B. REACH number 01-2119484861-29-003

1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses of the substance or mixture SU 21 Consumer use: private households
SU 1 Agriculture, forestry, fisheries - supplementary fertilizer

Uses advised against Any use not specified in this section or in section 7.3

1.3 Details of the supplier of the safety data sheet

Company's name Terra Aquatica
Address 4 Boulevard du Biopole, 32500 Fleurance
Phone number +33 (0)5 62 06 08 30
E-mail address info@terraaquatica.com

1.4 Emergency telephone number

Medical / rescue services **999**
Fire and rescue **999**
Police **101**
EU emergency call line **112**

ORFILA Toxicological Information Center (INRS) **(+33 01 45 41 59 59)**

Toxicological information center
South West **(+33 05 61 77 74 47)**

2 SECTION 2 Hazards identification

2.1 Classification of the substance or mixture

Reg. 1272/2008/CLP
Additional information None
Hazards for humans Yes, eye damage
Environmental risks None
Physico-chemical hazards None
Other hazards

2.2 Label elements

In accordance with Reg. 1272/2008/CLP and its adaptations

Danger pictogram

Hazard Word DANGER

Hazardous substances to be indicated on the label None

Hazard statement None

Warning statement

H315 Causes skin irritation.
H318 Causes serious eye damage.
P264-P280(302+352) - P(305+351+338)- P(332+313)-
P(337+313)-P362

Additional information on hazards (EU)

2.3	Other hazards	None
3	SECTION 3 Composition/information on ingredients	
3.1	Substances	Non applicable
3.2	Mixtures	
	Description	Humic is an aqueous mixture of humic and fulvic acids and their salts.
	Chemical Name	Potassium salts
	Concentration	10~5%
	CAS NO.	68514-28-3
	Registration number	271-030-1
	Additional data for identification of hazardous substances	Non applicable
4	SECTION 4 First aid measures	
	No known incidents of damage to persons who have used this product. However, in case of doubt or if symptoms persist, seek medical attention. Do not give anything by mouth to an unconscious person.	
4.1	Description of first aid measures	
	In case of eye contact	Immediately flush eyes, including under the eyelids, with plenty of clean, clear water for at least 15 minutes.
	In case of skin contact	Rinse thoroughly with water for at least 15 minutes. Remove contaminated clothing. If the skin is red or puffy, or if an irritation persists, consult a doctor. Do not give anything by mouth to an unconscious or convulsing person. If a person has swallowed this product and is conscious, give small amounts of water to drink to dilute the product.
	In case of eye contact	
	In case of inhalation	Under normal conditions of use, inhalation is unlikely. If inhaled, move to fresh air and if necessary, assist breathing. In case of breathing difficulties, consult a doctor as soon as possible.
	Protection of first aid providers	Depending on the first aid context, wear appropriate protective equipment including a mask or filtered respirator. Always wear protective gloves and a resuscitation mask in case of artificial respiration. Wash hands thoroughly after first aid. If your clothing is contaminated with a chemical substance during first aid administration, change them.
	Other data	For further details of first aid administration, including but not limited to more serious health effects, the doctor may consult the Toxicological Information Centre, hotline: see section 1.4
4.2	Most important symptoms and effects, both acute and delayed	Eye hazard: Causes severe eye irritation. Skin Contact Hazard: Causes skin irritation, may cause allergic skin reaction. Ingestion hazard: None known. Inhalation hazard: None known.
4.3	Indication of any immediate medical attention and special treatment needed	No known data
5	SECTION 5 Firefighting measures	

5.1	Extinguishing media	<p>The product is not flammable. Fire hazard low due to the flammability characteristics of the product under normal storage, handling and use conditions.</p> <p>Suitable extinguishing media for a surrounding fire Use dry chemical, carbon dioxide, water spray (mist) or foam.</p> <p>Inappropriate extinguishing media In case of fire, do not use: Water jet</p>
5.2	Special hazards arising from the substance or mixture	<p>Given its flammability characteristics, the product does not present a specific risk of fire or explosion under normal storage, handling and use conditions.</p> <p>A fire in the surrounding area will often produce thick black smoke. Exposure to compositional products may pose health risks. Do not breathe dust, vapours or fumes released by the combustion of products.</p>
5.3	Advice for firefighters	<p>Protective actions to be taken when fighting fires Quickly isolate the area by evacuating all persons from the area near the incident in the event of a fire. Do not take any action involving personal risk or in the absence of adequate training. Keep containers away from fire if it can be done without risk. Use water or spray to keep containers exposed to fire cool. Beware of water flows resulting from firefighting. Do not discharge fire extinguishing material into drains or sewers.</p>
	Appropriate protective equipment	<p>The product is not combustible. In the event of a fire in the surrounding area, appropriate extinguishing media and protective equipment may be used for the other materials present (full protective clothing and personal respiratory equipment), in accordance with EN469 for a basic level of protection against chemical incidents. Have a minimum of emergency facilities or intervention elements (fire blankets, medicine kit, etc.) in accordance with Directive 89/654/EC.</p>
5.4	Other data	Non applicable
6 SECTION 6 Accidental release measures		
6.1	Personal precautions, protective equipment and emergency procedures	
6.1.1	For non-emergency personnel	Ensure proper ventilation. Wear gloves and safety glasses to avoid stains or risk of splashing.
6.1.2	For emergency responders	Workers will be equipped with personal protective equipment appropriate to the possible hazards. (See section 8)
6.2	Environmental precautions	The product is biodegradable. However, avoid contamination of sewers, surface water and groundwater. If this happens, inform the competent authorities.
6.3	Methods and material for containment and cleaning up	
6.3.1	Containment method	Sewer coverage
6.3.2	Cleaning procedure	Collect the spilled product by mechanical means and remove any residues by water jets. Provide adequate ventilation at the location of the spill. The disposal of the contaminated material must be carried out in accordance with the provisions of point 13.

Other information	Do not put the spilled product in contact with combustible or incompatible materials. Cleaning personnel must wear equipment to protect skin and eyes. Small amounts of product can be mopped with inert, non-combustible materials such as sand or soil. These materials must then be placed in appropriate containers. Do not dispose of in gutters or sewers. Do not discard any residue.
6.4 Reference to other sections	Collect the remains in an identified container: see point 13 for disposal. Personal protective equipment: see section 8 Withdrawal considerations: see section 13. See section 1 for emergency contact information.
7 SECTION 7 Handling and storage	
7.1 Precautions for safe handling	Avoid formation of suspended particles and dispersion of the product in the air. Provide adequate ventilation in areas where suspended particles develop. Keep away from flames and sparks. Do not smoke. Keep away from heat and other sources of fire. Do not eat, drink or smoke in work areas. Wash hands after each use.
7.2 Conditions for safe storage, including any incompatibilities	Provide adequate local ventilation or exhaust. Store in a cool, dry place. Keep container tightly closed. Ideally the storage temperature should be between 5 and 30°C. Close containers before and after each use to avoid sources of moisture or heat. Keep containers upright to avoid the risk of leakage. If possible store in areas with impermeable pavement.
7.3 Specific end use(s)	No specific end uses. Good practice: keep in closed and labeled containers. Close containers before and after each use to avoid sources of moisture or heat. Store in areas with impervious pavement.
8 SECTION 8 Exposure controls/personal protection	
8.1 Control parameters	Not applicable Follow good industrial hygiene practices.
8.2 Exposure controls 8.2.1 Appropriate engineering controls	No particular control
8.2.2 Individual protection measures, such as personal protective equipment	Use individual protections placed on the market in accordance with the provisions of Regulation (EU) 2016/425 of the European Parliament and of the Council of 9 March 2016. Personal protective equipment must be adapted to the risk, kept clean and properly maintained in accordance with the provisions of the Labour Code.
a) Eye/face protection	It is recommended to wear protective glasses in accordance with the NF EN166 standard before any handling of products in order to avoid the risks of projection.

b)	Skin protection	Hands: Wear suitable protective gloves in case of prolonged or repeated contact with the product to avoid stains. Use suitable chemical-resistant protective gloves in accordance with NF EN374.
c)	Respiratory protection	Ensure adequate ventilation, especially in enclosed areas. Respiratory protection device not required.
	Body protection	Wear appropriate protective clothing. After contact with the product, all soiled body parts should be washed.
8.3	Environmental exposure controls	No data available. Biodegradable product

9 SECTION 9 Physical and chemical properties

9.1 Information on basic physical and chemical properties

a)	Physical state	All Humic compounds are in aqueous solution.
b)	Colour	Brown
c)	Odour	Characteristic
d)	Melting point/freezing point	Not determined
e)	Boiling point or initial boiling point and boiling range	Not determined
f)	Flammability	Non inflammable
g)	Lower and upper explosion limit	Not applicable
h)	Flash point	Not determined
i)	Auto-ignition temperature	Not determined
j)	Decomposition temperature	Not determined
k)	pH	8
l)	Kinematic viscosity	Not determined
m)	Solubility	Entirely soluble
n)	Partition coefficient n-octanol/water (log value)	Not determined
o)	Vapour pressure	Not determined
p)	Density and/or relative density	23hPa (20°C)
q)	Relative vapour density	Not determined
r)	Particle characteristics	Not determined

9.2 Other information

9.2.1	Information with regard to physical hazard classes	None
-------	--	------

10 SECTION 10 Stability and reactivity

10.1	Reactivity	Stable. No particular risk of reaction with other materials under normal conditions of use.
10.2	Chemical stability	Humic is stable at room temperature in closed packages and under normal storage and handling conditions. No hazardous polymerization can be produced by any of these components
10.3	Possibility of hazardous reactions	No risk of dangerous reactions under normal use and storage conditions
10.4	Conditions to avoid	No special conditions to avoid.
10.5	Incompatible materials	No specific data.
10.6	Hazardous decomposition products	Not determined

11 SECTION 11 Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

a)	Acute toxicity	Not applicable
b)	Skin corrosion/irritation	Category 2
c)	Serious eye damage/irritation	Category 2
d)	Respiratory or skin sensitisation	Not applicable

e)	Germ cell mutagenicity	Not applicable
f)	Carcinogenicity	Not applicable
g)	Reproductive toxicity	Not applicable
h)	STOT-single exposure	Not applicable
i)	STOT-repeated exposure	Not applicable
j)	Aspiration hazard	
11.1.5	Information on likely routes of exposure	
	Ingestion	Unlikely route of exposure under normal conditions of use. No known significant effects or critical hazards.
	Inhalation	Unlikely route of exposure under normal conditions of use. No known significant effects or critical hazards.
	Skin exposure	May cause skin irritation.
	Eye Exposure	Causes serious eye damage.
11.1.6	Symptoms related to the physical, chemical and toxicological characteristics	No known effect
11.1.7	Delayed and immediate effects as well as chronic effects from short and long-term exposure	No known effect
11.1.8	Interactive effects	No data available
11.1.9	Absence of specific data	No data available
11.1.10	Mixtures	No data available
11.1.11	Mixture versus substance information	Mixture not containing substances subject to registration. No known adverse effects or symptoms resulting from exposure to the mixture or its components.
11.2	Information on other hazards	
11.2.1	Endocrine disrupting properties	No data available
12	SECTION 12 Ecological information	
12.1	Toxicity	Not known risks.
12.2	Persistence and degradability	Easily biodegradable by plants and soil. The product does not show any bioaccumulation phenomena.
12.3	Bioaccumulative potential	The product is not expected to cause any effect on the environment if used properly according to the recommendations.
12.4	Mobility in soil	This product can be carried by groundwater seepage or surface runoff because it is completely soluble.
12.5	Results of PBT and vPvB assessment	No data available to date to the best of our knowledge
12.6	Endocrine disrupting properties	No data available to date to the best of our knowledge
12.7	Other adverse effects	No data available to date to the best of our knowledge
13	SECTION 13 Disposal considerations	
13.1	Waste treatment methods	Do not discharge into sewers or waterways. Waste: Waste management is carried out without endangering human health and without harming the environment, including without creating a risk to water, air, soil, fauna and flora.

Recycle or dispose of in accordance with current legislation, preferably by an approved collector or company.

Disposal of the product/packaging: it is prohibited to discharge it into sewers or waterways. Residues and empty containers must be handled and disposed of in accordance with the relevant local/national legislation in force.

Follow the provisions of Directive 2008/98/EC on waste management.

Recover the product as much as possible. Follow local legislation.

Waste List Code

06 10 99 Wastes not otherwise specified

15 01 02 Plastic wastes (container)

14 SECTION 14 Transport information

14.1	UN number or ID number	Non-hazardous transport
14.2	UN proper shipping name	Non-hazardous transport
14.3	Transport hazard class(es) ADR IMDG OACI/IATA	Non-hazardous transport
14.4	Packing group	Non-hazardous transport
14.5	Environmental hazards	Non-hazardous transport
14.6	Special precautions for user	Non-hazardous transport
14.7	Maritime transport in bulk according to IMO instruments	Non-hazardous transport

15 SECTION 15 Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Reg. 1272/2008/EC

The product does not contain substances that can be classified as carcinogenic. 1 or 2 according to Reg.1272/2008/EC and subsequent updates.

Reg. 830/2015/EC (REACH)

Not applicable

Special risks

None to our knowledge.

15.2 Chemical safety assessment

Evaluation not carried out

16 SECTION 16 Other information

16.1 Abbreviations and acronyms

ADR: European Agreement concerning the International Carriage of Dangerous Goods by Road

CAS NUMBER: Chemical Abstract Service number

EC50: Concentration that gives effect to 50% of the test population.

EC NUMBER: Identification number in ESIS (European archive of existing substances)

CLP: Regulation EC 1272/2008

DNEL: Calculated No Effect Level

IATA DGR: International Air Transport Association Dangerous Goods Regulations

IMDG: International Maritime Dangerous Goods Code

IMO: International Maritime Organization

LC50: Lethal concentration 50

LD50: Lethal Dose 50%.

OEL: Occupational Exposure Level
PBT: Persistent, Bioaccumulative and Toxic according to REACH
PEC: Predicted Environmental Concentration
PEL: Predicted Exposure Level
PNEC: Predicted No Effect Concentration
REACH: Regulation EC 1907/2006
vPvB: Very Persistent and Bioaccumulative according to REACH
P264-P280(302+352) - P(305+351+338)- P(332+313)- P(337+313)-P362

Warning statement

Wash ... thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection. IF ON SKIN: Wash with plenty of water/... IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If skin irritation occurs: Get medical advice/attention .If eye irritation persists: Get medical advice/attention. Take off contaminated clothing.

16.4 Note

The indicated mixture does not require an SDS according to REACH requirements. Sheet established for information purposes.

This safety data sheet complies with the requirements established by Commission Regulation (EU) 2020/878 of 18 June 2020. It does not exempt the user from knowing and applying all the documents governing his activity. The user is responsible for taking precautions related to the specific use of the product. All regulatory requirements listed are intended simply to assist the recipient in fulfilling their responsibilities. This list should not be considered exhaustive. This sheet supplements the technical instructions for use but does not replace them. This safety data sheet has been compiled by Terra Aquatica on the basis of its current knowledge (safety data sheets of the active ingredients compiled by the manufacturer and other literature). The information contained herein is based on our knowledge of the product at the date indicated. It is given in good faith. The user's attention is drawn to the possible risks involved when a product is used for purposes other than those for which it was created.

The information describes the safety aspects of the product. They are not intended to guarantee specific properties.

The recipient must ensure that he is not responsible for anything other than the mentioned texts. It is the responsibility of the users to observe the applicable regulations.
