Safety data sheet COMMISSION REGULATION (EU) 2020/878 of 18 June 2020

Creation date : Revision date : Version:

15/01/16 15/02/23 6

| 1 1.1 | SECTION 1 Identification of the substance/mixture and of the company/undertaking Product identifier | | |
|----------|---|---|--|
| 1.1 | A. Trade name | TRIKOLOGIC | |
| 1.2 | Relevant identified uses of the substance or mixt | Relevant identified uses of the substance or mixture and uses advised against | |
| | Relevant identified uses of the substance or mixture | TrikoLogic is a soil and plant auxiliary substance in compliance with the European regulation 2008/113/EC on organic agriculture, based on spores of the natural fungus Trichoderma harzianum T50. It improves the health and the resistance of the plants and reinforces the development of the roots. | |
| | Uses advised against | Any use not specified in this section or in section 7.3 | |
| | Use descriptor system (REACH) | No data available (not applicable: IK). | |
| 1.3 | Details of the supplier of the safety data sheet | | |
| 1.4 | Company's name Address Phone number E-mail address Emergency telephone number Medical / rescue services Fire and rescue Police EU emergency call line | Terra Aquatica 4 Boulevard du Biopole, 32500 Fleurance +33 (0)5 62 06 08 30 info@terraaquatica.com 999 999 101 112 | |
| | ORFILA Toxicological Information Center (INRS) | (+) 33 01 45 41 59 59 | |
| 2 | Toxicological information center South West SECTION 2 Hazards identification | (+)33 05 61 77 74 47 | |
| 2.1 | Classification of the substance or mixture | | |
| | Reg. 1272/2008/CLP | In accordance with Regulation No. 1272/2008 (CLP), the product is not considered dangerous (IK). | |
| 2.2 | Additional information Hazards for humans Environmental risks Physico-chemical hazards Other hazards Label elements In accordance with Reg. 1272/2008/CLP and its adaptations Danger pictogram Hazard Word Hazardous substances to be indicated on the label Hazard statement Warning statement | None None None None None None None None | |

Additional information on hazards (EU)

| 2.3 | Other hazards | None |
|-----------------|---|---|
| 3 3.1 3.2 | SECTION 3 Composition/information on ingredien Substances Mixtures | Non applicable TrikoLogic TrikoLogic is a product based on spores of the natural fungus Trichoderma harzianum T50, it improves the health, the resistance of the plants and reinforces the development of the roots. |
| 4 | Additional data for identification of hazardous substances | Non applicable |
| 4 | SECTION 4 First aid measures | |
| | No known incidents of damage to persons who hav However, in case of doubt or if symptoms persist, s unconscious person. | e used this product. eek medical attention. Do not give anything by mouth to an |
| 4.1 | Description of first aid measures | |
| | In case of eye contact | Immediately flush eyes, including under the eyelids, with plenty of clean, clear water for at least 15 minutes. |
| | In case of skin contact | Rinse thoroughly with water for at least 15 minutes. Remove contaminated clothing. If the skin is red or puffy, or if an irritation persists, consult a doctor. Do not give anything by mouth to an unconscious or convulsing |
| | In case of eye contact | person. If a person has swallowed this product and is conscious, give small amounts of water to drink to dilute the product. |
| | In case of inhalation | Under normal conditions of use, inhalation is unlikely. If inhaled, move to fresh air and if necessary, assist breathing. In case of breathing difficulties, consult a doctor as soon as possible. |
| | Protection of first aid providers | Depending on the first aid context, wear appropriate protective equipment including a mask or filtered respirator. Always wear protective gloves and a resuscitation mask in case of artificial respiration. Wash hands thoroughly after first aid. If your clothing is contaminated with a chemical substance during first aid administration, change them. |
| | Other data | For further details of first aid administration, including but not limited to more serious health effects, the doctor may consult the Toxicological Information Centre, hotline: see section 1.4 |
| 4.2 | Most important symptoms and effects, both acute and delayed | No known symptoms |
| 4.3 | Indication of any immediate medical attention and special treatment needed | No known data |
| 5 | SECTION 5 Firefighting measures | |
| 5.1 | Extinguishing media | The product is not flammable. Fire hazard low due to the flammability characteristics of the product under normal storage, handling and use conditions. |
| | Suitable extinguishing media for a surrounding fire | Use dry chemical, carbon dioxide, water spray (mist) or foam. |
| | Inappropriate extinguishing media | In case of fire, do not use: Water jet |

| 5.2 | Special hazards arising from the substance or mixture | Given its flammability characteristics, the product does not present a specific risk of fire or explosion under normal storage, handling and use conditions. A fire in the surrounding area will often produce thick black smoke. Exposure to compositional products may pose health risks. Do not breathe dust, vapours or fumes released by the combustion of products. |
|---------------------|---|--|
| 5.3 | Advice for firefighters | |
| | Protective actions to be taken when fighting fires | Quickly isolate the area by evacuating all persons from the area near the incident in the event of a fire. Do not take any action involving personal risk or in the absence of adequate training. Keep containers away from fire if it can be done without risk. Use water or spray to keep containers exposed to fire cool. Beware of water flows resulting from firefighting. Do not discharge fire extinguishing material into drains or sewers. |
| | Appropriate protective equipment | The product is not combustible. In the event of a fire in the surrounding area, appropriate extinguishing media and protective equipment may be used for the other materials present (full protective clothing and personal respiratory equipment), in accordance with EN469 for a basic level of protection against chemical incidents. Have a minimum of emergency facilities or intervention elements (fire blankets, medicine kit, etc.) in accordance with Directive 89/654/EC. |
| 5.4 | Other data | Non applicable |
| 6 6.1 | SECTION 6 Accidental release measures Personal precautions, protective equipment and e | emergency procedures |
| 6.1.1 | For non-emergency personnel | Ensure proper ventilation. Wear gloves and safety glasses to avoid stains or risk of splashing. |
| 6.1.2 | For emergency responders | Workers will be equipped with personal protective equipment appropriate to the possible hazards. (See section 8) |
| 6.2 | Environmental precautions | The product is biodegradable. No special measures required. |
| 6.3 6.3.1 | Methods and material for containment and cleanin Containment method | ng up Sewer coverage |
| 6.3.2 | Cleaning procedure | Collect the spilled product by mechanical means and remove any residues by water jets. Provide adequate ventilation at the location of the spill. The disposal of the contaminated material must be carried out in accordance with the provisions of point 13. |
| 6.4 | Reference to other sections | Collect the remains in an identified container: see point 13 for disposal. Personal protective equipment: see section 8 Withdrawal considerations: see section 13. See section 1 for emergency contact information. |
| 7 | SECTION 7 Handling and storage | |

| 7.1 | Precautions for safe handling | Avoid formation of suspended particles and dispersion of the product in the air. Provide adequate ventilation in areas where suspended particles develop. Keep away from flames and sparks. Do not smoke. Keep away from heat and other sources of fire. Do not eat, drink or smoke in work areas. Wash hands after each use. |
|------------------------------|--|---|
| 7.2 | Conditions for safe storage, including any incompatibilities | Provide adequate local ventilation or exhaust. Store in a cool, dry place. Keep container tightly closed. Temperature above 90°C may cause thermal decomposition creating totally benign by-products, organic matter, water, carbon. Ideally the storage temperature should be between 5 and 25°C. Close containers before and after each use to avoid sources of moisture or heat. Avoid contact with strong oxidizing agents. |
| 7.3 | Specific end use(s) | No specific end uses. Good practice: keep in closed and labeled containers. Close containers before and after each use to avoid sources of moisture or heat. Store in areas with impervious pavement. |
| 8 | SECTION 8 Exposure controls/personal protection | 1 |
| 8.1 | Control parameters | Not applicable Follow good industrial hygiene practices. |
| 8.2 8.2.1 | Exposure controls Appropriate engineering controls | No particular control |
| 8.2.2 | Individual protection measures, such as personal protective equipment | Use individual protections placed on the market in accordance with the provisions of Regulation (EU) 2016/425 of the European Parliament and of the Council of 9 March 2016. Personal protective equipment must be adapted to the risk, kept clean and properly maintained in accordance with the provisions of the Labour Code. |
| a) | Eye/face protection | It is recommended to wear protective glasses in accordance with the NF EN166 standard before any handling of products in order to avoid the risks of projection. |
| b) | Skin protection | Hands: Wear suitable protective gloves in case of prolonged or repeated contact with the product to avoid stains. Use suitable chemical-resistant protective gloves in accordance with NF EN374. |
| c) | Respiratory protection | Ensure adequate ventilation, especially in enclosed areas. Respiratory protection device not required. |
| | Body protection | Not required |
| 8.3 | Environmental exposure controls | Not required. Biodegradable product |
| 9 | SECTION 9 Physical and chemical properties | |
| 9.1 a) b) c) | Information on basic physical and chemical prope Physical state Colour Odour | rties Solid, powder Greenish white No odor |

| d) | Melting point/freezing point | Not determined |
|--|---|---|
| e) | Boiling point or initial boiling point and boiling range | Not determined |
| f) | Flammability | Non inflammable |
| g) | Lower and upper explosion limit | Not applicable |
| h) i) j) k) l) m) | Flash point Auto-ignition temperature Decomposition temperature pH Kinematic viscosity Solubility | Not determined >400°C >900°C 6~8 in dispersion of 2g/l water at 20°C Not determined Entirely soluble |
| n) | Partition coefficient n-octanol/water (log value) | Not determined |
| o) p) q) r) 9.2 | Vapour pressure Density and/or relative density Relative vapour density Particle characteristics Other information | Not determined 0.7g/cm3 Not determined Not determined |
| 9.2.1 | Information with regard to physical hazard classes | None |
| 10 | SECTION 10 Stability and reactivity | |
| 10.1 | Reactivity | Stable. No particular risk of reaction with other materials under normal conditions of use. |
| 10.2 | Chemical stability | TrikoLogic is stable at room temperature in closed packages and under normal storage and handling conditions. Ideally the storage temperature should be between 5 and 25°C. |
| 10.3 | Possibility of hazardous reactions | No risk of dangerous reactions under normal use and storage conditions |
| 10.4 | Conditions to avoid | Prolonged exposure to temperatures >30°C; storage in a humid place. |
| 10.5 | Incompatible materials | Any substance acting on organic materials; fungicides and acids. |
| 10.6 | Hazardous decomposition products | None known |
| 11 a) b) c) d) e) f) g) | SECTION 11 Toxicological information Information on hazard classes as defined in Regula Acute toxicity Skin corrosion/irritation Serious eye damage/irritation Respiratory or skin sensitisation Germ cell mutagenicity Carcinogenicity Reproductive toxicity | ation (EC) No 1272/2008 50g>kg |
| h) | STOT-single exposure | |
| i) | STOT-repeated exposure | |
| j) | Aspiration hazard | |
| 11.1.5 | Information on likely routes of exposure | |
| | Ingestion | Unlikely route of exposure under normal conditions of use. No known significant effects or critical hazards. |
| | Inhalation | Unlikely route of exposure under normal conditions of use. No known significant effects or critical hazards. |
| | Skin exposure Eye Exposure | No known hazards. Wash down with water. Slight irritation possible. Wash down with water. |

| 11.1.6 | Symptoms related to the physical, chemical and toxicological characteristics | No known effect |
|--|---|---|
| 11.1.7 | Delayed and immediate effects as well as chronic effects from short and long-term exposure | No known effect |
| 11.1.8 11.1.9 | Interactive effects Absence of specific data | No data available No data available |
| 11.1.10 | Mixtures | No data available |
| 11.1.11 | Mixture versus substance information | Mixture not containing substances subject to registration. No known adverse effects or symptoms resulting from exposure to the mixture or its components. |
| 11.2 | Information on other hazards | |
| 11.2.1 | Endocrine disrupting properties | No data available |
| 12 | SECTION 12 Ecological information | |
| 12.1 | Toxicity | No known risks. Active ingredient is naturally occurring and practically non-toxic, non-allergenic and non-pathogenic to fish, non-target insects, non-target plants and freshwater invertebrates. |
| 12.2 | Persistence and degradability | Not applicable |
| 12.3 12.4 | Bioaccumulative potential Mobility in soil | Not applicable Not applicable |
| 12.5 | Results of PBT and vPvB assessment | Not applicable |
| 12.6 | Endocrine disrupting properties | Not applicable |
| | | |

| 16.4 | Note | REACH requirements. Sheet established for information purposes. |

This safety data sheet complies with the requirements established by Commission Regulation (EU) 2020/878 of 18 June 2020. It does not exempt the user from knowing and applying all the documents governing his activity. The user is responsible for taking precautions related to the specific use of the product. All regulatory requirements listed are intended simply to assist the recipient in fulfilling their responsibilities. This list should not be considered exhaustive. This sheet supplements the technical instructions for use but does not replace them. This safety data sheet has been compiled by Terra Aquatica on the basis of its current knowledge (safety data sheets of the active ingredients compiled by the manufacturer and other literature). The information contained herein is based on our knowledge of the product at the date indicated. It is given in good faith. The user's attention is drawn to the possible risks involved when a product is used for purposes other than those for which it was created.

The information describes the safety aspects of the product. They are not intended to guarantee specific properties.

The recipient must ensure that he is not responsible for anything other than the mentioned texts. It is the responsibility of the users to observe the applicable regulations.
