

Fulvic

A woman with long red hair, wearing a red short-sleeved button-down dress and green sandals, is sitting cross-legged on cracked, dry earth. She is holding a small green plant in a terracotta pot. Her arms and legs have green vine-like patterns on them. The background is a desert landscape with a large, pale yellow sun or moon in a greenish-yellow sky with orange clouds. The word "Fulvic" is written in large, white, outlined letters at the top.

**All plants
need their Fulvic**

User guide

What is Fulvic ?

Fulvic is a liquid organic additive. It is composed mainly of very high quality fulvic acids, which act rapidly to form chelated complexes with nutrients, improving their availability. They also have a number of beneficial effects on plant biology:

- Improved access to nutrients
- Better root development
- Earlier harvests
- Greater vigor and resistance to disease
- Enhanced aroma and fragrance
- Higher essential oil content
- Significantly higher yields
- Greater tolerance to hydric and thermal stresses

The most recent studies have shown that fulvic acid is also particularly effective applied as a foliar spray.

Directions for use

How to use Fulvic ?

Fulvic is recommended for all types of crops, including ornamentals, vegetables, medicinal plants and arboriculture. It is suitable for hydroponic cultivation, soil cultivation in nutrient solution or foliar application.

It can be applied by soaking seeds before germination until preflowering.

Recommended dosage :

	 Hydro	 Coco	 Soil	 1st roots	 1st true leaves	 Growing	 Pretlowering	 Flowering	 Ripening	 Flash Clean®
● Fulvic				2ml/L	2ml/L	2ml/L	2ml/L	-	-	-
Spray				3ml/L	3ml/L	3ml/L	3ml/L	-	-	-

*Can be used more than once a week, without risk to the plant, as a foliar spray, in solution or in soil.

To keep in mind

Fulvic is sold in bottles of 0.5 L, 1 L, 5 L, 10 L, 60 L, 1000 L.

Association :

Fulvic can be combined with all types of fertilizers - Terra Aquatica or not - and mineral and organic substrates, in hydroponics and outdoors.

Requirements :

- Shake before use.
- Store in a dry place, in unopened packaging.
- Do not store below 5°C.
- Store in original packaging.
- Do not exceed recommended dosage.
- Keep out of reach of children.
